BUSINESS HESITATES

Uncertainties as to the Future Affects Trade.

STILL THERE'S ENCOURAGEMENT

More Mills Have Started Up Than Have Stopped—Prices Are Again Greatly Depressed—Industrial Changes Have Been Few—Money Market Glutted. Commercial Disasters Diminished.

NEW YORK, Feb. 24.—R. G. Dun & Company's weekly review of trade says: A waiting condition of business is one in which weekly fluctuations mean nothing. Business of all kinds is hesitating until more can be determined about the future, and meanwhile orders which will keep hands at work for a time are given and accepted, this week increasing as in some others decreasing, without affording reasonable indications of the future.

Prices are again greatly depressed, as low or lower than ever having been made in wheat, silver and some manufactured products, and neither cotton, wool nor raw iron have advanced. The glutted money markets continue to show that the volume of business is still inadequate to employ the circulation available, and the withdrawal of about \$60,000,000 from the New York market by the sale of government bonds does not cause the expected strengthening of rates. With gradually decreasing shipments of merchandise to other countries, foreign exchange rises, and some exports of gold are expected.

The volume of domestic trade does not seem to increase. In all clearinghouse payments the decrease is 44.6 per cent for the week, again 37.8 for the previous week, and about 37.5 per cent for the month thus far.

Industrial changes have been few, but a little better demand for some textile goods has started more mills than have stopped. There is a better feeling in fancy cotton, though some goods are a shade lower. Woolen dress goods are steady with fair demand, and though orders for heavy woolens and worsteds are light, they are a little better, some agents having made fair progress. Encouragement is felt by some in the calculation that clothiers have done about 60 per cent of the usual spring business, while manufacturers have done about 32-1/2 per cent, so that clothiers' stocks must be reduced.

Shipments of boots and shoes for the week show a decrease of 24.8 per cent, and for the month 19 per cent, against 20.2 in January, and buyers are doing very little, but in cheaper goods most factories are at work, though not with the full number of hands. A little improvement is seen in women's light and medium priced calf goods.

A larger demand gives encouragement in the iron and steel manufacture and increases the output of mills, though it is yet only 50 to 60 per cent of their capacity. Hence fierce competition continues to depress prices, and while the recent slight advance in steel billets and pig iron has been lost, some other products are selling lower than ever.

Prices of commodities now average about 1.4 per cent higher than a month ago, but 11.7 per cent lower than a year ago, and, excepting this year, have never been as low on the whole as they are now.

The failures during the past week numbered, in the United States 288, against 193 last year, and in Canada 51, against 37 last year. Both in number and in magnitude commercial disasters have diminished, and in the first half of February the liabilities thus far reported of all firms failing amount to only \$3,319,698, of which \$3,679,845 were of manufacturing and \$4,559,375 of trading concerns. The aggregate of liabilities was \$6,649,253 in two weeks of January.

TROUBLE OVER A DITCH.

Two Mexicans Killed and the Murderer Makes His Escape.

SOLOMONVILLE, A. T., Feb. 24.—W. R. Stanford has killed two Mexicans at Duncan. He had trouble with the Mexicans over an irrigation ditch on which they were working, and when about 30 feet from the Mexicans, he began firing with a Winchester. There were five or six Mexicans at work. Two were killed.

On a preliminary examination Stanford was held for murder in \$20,000 bond and started for Solomonville in charge of a special officer. He escaped from the carriage and has not been caught.

Noted Military Life Ended.

WHATCOM, Wash., Feb. 24.—Captain W. C. P. Graham, an Englishman distinguished for his military record, died here yesterday afternoon, having been long ill-health as a result of wounds and hardships. He was a member of the famous light brigade immortalized by Tennyson, and one of the survivors of the 600 who rode into "The Valley of Death" at Balaklava.

Interlake Canal.

OTTAWA, Feb. 24.—Colonel Tisdale, member of parliament for South Norfolk, has deposited with the clerk of the railway committee of the house of commons the draft of a bill for the incorporation of the St. Clair and Lake Erie Ship Canal company, which has for its object the construction of a canal 13 miles long from Lake St. Clair to Lake Erie.

Nose Bitten Off.

BRAZIL, Ind., Feb. 24.—A bloody fight occurred here between Peter Anderson and John Pierce, two well-respected citizens, in which Anderson was severely beaten and his nose was bitten off. Pierce was arrested.

INSURGENT VESSEL SUNK.
Several Men on Board Killed by the Boiler Exploding.

BUENOS AIRES, Feb. 24.—Advices from Rio Janeiro says:

The government battery at Ponto Madame has sunk the insurgent transport Murcurio. The boiler of the transport burst and several of the men aboard were killed.

President Peixoto has stopped all telegraphic communication between Rio Janeiro and Bahia. This action is supposed to have been taken on account of recent events in Bahia which have weakened the acting president's position.

It is reported here that the government squadron has mutinied and that the insurgent army in the southern part of Brazil is advancing without meeting with any opposition. The government troops sent to meet the army are said to have been seized with panic and to have fled. It is feared that the continued depreciation of paper money will lead to a financial crisis.

A Bolivian force has invaded the western part of Brazil and established military posts along the upper course of the river Purus in the State of Amazonas.

New York Herald's Dispatches.

NEW YORK, Feb. 22.—The Herald's special dispatch from Montevideo, Uruguay, says:

A correspondent in Santos sends word that it is expected that the city will be in possession of the insurgents before the end of the week.

The insurgent forces here have won another victory. The local troops were defeated by the federales two days ago near Foxima, on the road from Staniro to Sao Paulo. Nearly every man in Peixoto's battalion was wounded. During the fight the national police deserted Peixoto and joined the rebels in a body.

Six Sailors Arrive From Brazil.

NEW YORK, Feb. 24.—The steamship Olbers, which arrived here yesterday from Rio Janeiro, brought six seamen from the United States fleet at that port. They were sent home, as their terms of enlistment have expired. The men speak highly of Admiral Benham's action in protecting merchant vessels at Rio, and confirm all details of that incident reported to the Associated Press.

ERASTUS WIMAN STILL IN PRISON.

His Friends Will Secure Bail and He Will Be Released.

NEW YORK, Feb. 24.—Erastus Wiman is still in the Tombs prison despite the earnest endeavors of many prominent gentlemen who have worked hard to procure the \$25,000 bail which is required by the New York authorities.

Mr. J. Frank Emmons, president of the Staten Island Rapid Transit company, accompanied by Mr. H. L. Horton of H. L. Horton & Company, bankers of this city, called at the district attorney's office to go on his bond. District Attorney Fellows was not in and Assistant District Attorney M. M. Davis represented him. Mr. Davis explained to the gentlemen that he could not accept any bond that was not secured by real estate unencumbered and situated in New York county and which would be value for double the amount of the bond.

It was stated that New York real estate was offered as security, but as it was only valued at \$48,000, Mr. Davis did not like to accept it in the absence of Colonel Fellows.

Messrs. Emmons and Horton, accompanied by Mayor Bartlett of Staten Island left the courthouse, saying that the necessary bond would soon be filed.

Indians Don't Want Statehood.

CHECOTAH, I. T., Feb. 24.—The international council, composed of the five Indian tribes who have been in conference with the Dawes commission for the past three or four days, adopted a long series of resolutions expressing it as the sense of all the Indians, that it would be detrimental to the welfare of the various tribes to accept statehood and declining to treat with the Dawes commission to that end. After the adoption of these resolutions, the council adjourned sine die.

Chicago Man With the Hydrophobia.

CHICAGO, Feb. 24.—A man, violently ill with hydrophobia, caused a panic in the crowd of poor who sought aid at the county agent's office. He gave his name as George Barkeet, a laborer, during a lucid interval, but soon became violent again, and, barking and screaming, attempted to rush at the people about him. After a terrible struggle he was overpowered and taken to a hospital. His malady is the result of a dog bite received two months ago.

Train Crew Run Down.

HUNTINGTON, Pa., Feb. 24.—While seated in their caboose, and running backwards rapidly, the crew of the Huntington coal train was run down by a draft of loaded cars on the Huntington Broadtop railroad. There was no warning from the approaching train. William Sneath, a member of the crew, was ground to pieces, and Conductor John Myers and Brakeman S. D. Worley were probably fatally injured.

Tired of War.

GUATEMALA, Feb. 24.—Private advices from Nicaragua say that President Zelaya is tired of the war and is anxious to submit the dispute to arbitration. He has signified to other Central American governments that his government is ready to unite with the other republics to form a union.

Baptist Minister Dead.

OMAHA, Feb. 24.—Rev. James A. Stone, 84 years old, died yesterday. He was one of the most prominent Baptist ministers in America. He was born at Columbus, O., and for a quarter of a century was at the head of the Baptist church work among the negroes of the south.

Nose Bitten Off.

BRAZIL, Ind., Feb. 24.—A bloody fight occurred here between Peter Anderson and John Pierce, two well-respected citizens, in which Anderson was severely beaten and his nose was bitten off. Pierce was arrested.

DISASTER AT SEA.

The British Bark Montgomery Castle Encounters a Storm.

EIGHT MEN SWEPT OVERBOARD.

All the Officers Drowned and No One Left on Board That Understood Navigation. The Vessel Was Badly Damaged, but Finally Reaches the Azore Islands. Other Foreign News.

LONDON, Feb. 24.—A dispatch from Fayal, one of the Azore islands, brings a terrible tale of disaster at sea. In some manner, not explained in the dispatch, the British bark Montgomery Castle, bound from New York to Anjer, Java, for orders, has reached Fayal after experiencing fearful weather. All the bark's boats were washed away, her cabin was stove in, everything moveable on her decks was washed overboard and she was leaking.

In addition, during the storm, eight of her crew, including all the officers, were washed overboard and drowned, leaving nobody on board the ship capable of navigating her.

The Montgomery Castle recently arrived at New York from Rio Janeiro and left the former port on Jan. 27 under the command of Captain Bines for the Strait of Sunda, in which the port of Anjer is situated.

The bark was built at Liverpool in 1869, she was of about 810 tons register and was owned by W. Blair & Company of Liverpool.

It is presumed that the survivors of the crew of the Montgomery Castle, who can not be more than about half a dozen in number, must have had great difficulty in making the Azores without any body on board of her who understood navigation. It is, therefore, supposed that the survivors worked the ship entirely by dead reckoning and mere chance and the currents must have drifted them within sight of land.

More French Anarchists.

PARIS, Feb. 24.—The police have arrested an anarchist named Rivols, who is presumed to be one of the leaders of the bombthrowers now operating in Paris. He is well known to the London police, who warned the Paris authorities to look out for him. This is reason to believe that he intended to repeat the outrage of Vaillant as Deputy Sauzel alleges that Rivols applied to him for tickets of admission to the chamber of deputies on Monday and Tuesday. M. Sauzel regarded the man with suspicion, and refused to comply with his request.

A supposed bomb was found in the Galerie Montpensier, Palais Royal, and sent to the municipal laboratory to be examined.

Anarchists Sentenced.

VIENNA, Feb. 24.—The court before which the 12 anarchists, accused of conspiring against the life of Emperor Francis Joseph, have been on trial, yesterday sentenced the prisoners. Franz Haspel was sentenced to 10 years rigorous imprisonment and Stefan Hahnel, the second leader of the conspiracy, received a sentence of eight years imprisonment.

Other conspirators were sentenced to terms of from two to four years' imprisonment, and six of the accused were acquitted.

To Dissolve Parliament.

LONDON, Feb. 24.—According to the Scotch Unionist press, the Conservative, Unionist and Liberal election agents have been warned that a dissolution of parliament will occur within 30 days, and instructions have been given to make preparations for a new election. It is also said that Mr. Gladstone will probably not stand for re-election, in which case Sir James Carmichael will doubtless be the Liberal candidate for the Midlothian seat occupied by Mr. Gladstone.

Something Has Happened.

LONDON, Feb. 24.—A dispatch to The Times from Plymouth says it is feared that a disaster has occurred to the gunboat Widgeon or her crew. A private telegram has been received by the wife of an officer of the Widgeon which indicates that either the vessel or the crew has met with an accident or has been engaged in a fight with the natives on the west coast of Africa. The admiralty has heard nothing.

Coast Guards Drowned.

LONDON, Feb. 24.—The coast guard crew at Inverness, Scotland, in endeavoring to rescue the crew of a vessel in distress near there, met with a mishap. Their boat was swamped, and three officers and three men were drowned.

Guatemala Suspends Payment.

LONDON, Feb. 24.—Senor Cruz, the Guatemalan minister, has announced that his government has suspended payment on its external debt in consequence of the depreciation of the price of silver.

CONCORD QUARANTINED.

Six Sailors Sent to a Hospital Suffering From Variola.

WASHINGTON, Feb. 24.—Rear Admiral Skerrett, commanding the Asiatic station, has reported to the navy department under date of Feb. 1, from Yokohama, that variola has broken out on the Concord, and that six cases, all enlisted, have been transferred to the hospital.

He says the vessel has been quarantined and thoroughly fumigated, and he expresses the belief that the disease has been eradicated, and no more cases will occur. Admiral Skerrett says that with the exception noted the health of the squadron is excellent.

Baptist Minister Dead.

OMAHA, Feb. 24.—Rev. James A. Stone, 84 years old, died yesterday. He was one of the most prominent Baptist ministers in America. He was born at Columbus, O., and for a quarter of a century was at the head of the Baptist church work among the negroes of the south.

Nose Bitten Off.

BRAZIL, Ind., Feb. 24.—A bloody fight occurred here between Peter Anderson and John Pierce, two well-respected citizens, in which Anderson was severely beaten and his nose was bitten off. Pierce was arrested.

DESTROYED THE EVIDENCE.

A Notorious Band of Outlaws Burn a Courthouse to Save Themselves

BIRMINGHAM, Ala., Feb. 24.—Last night unknown parties broke into the Clay county courthouse at Ashland, and saturated the building with oil and set fire to it. The fire was discovered in time to save the building in a partially damaged condition, but not until all the records in the clerk's office had been burned.

It develops that the fire was the result of a plot of a notorious gang of outlaws who had been indicted, but not arrested. Their purpose was to destroy all the indictments and records in their cases, which they succeeded in doing. Some of the burned records were found half a mile from the scene. Dogs have been put on the trail of the incendiaries, who, if captured, will be severely dealt with.

DOUBLE MURDER.

An Old Man and His Housekeeper Found Dead in Their Dwelling.

MONTICELLO, N. Y., Feb. 24.—A double murder, which for atrocity almost equals that at the Halliday farm, was discovered in Rushville, Sullivan county, when the mutilated bodies of Jacob A. Moore and his housekeeper, Mrs. Slack, were found side by side in Moore's farmhouse.

Moore, who was 86 years old, lived in an old fashioned 2-story house, the upper part of which was vacant, alone with his housekeeper, who was 90 years old. He had just received a check for his pension money, and it is supposed he was murdered for this and other money he usually carried in his pocket.

SEVENTY-FIVE SHOTS FIRED.

A Farmer and a Constable Have a Battle With a Tramp.

DALLAS, Feb. 24.—A farmer named Joseph Bibb, living north of East Fork, has three daughters who keep house for him, his wife being dead. On Wednesday a tramp came along, and seeing no men about, insulted them who notified their father, who was at work in the field.

Mr. Bibb mounted his horse and went to Crandall for the constable. This officer and Mr. Bibb overtook the tramp, who opened fire upon them, and a battle ensued. In all 75 shots were fired. The tramp fell mortally wounded. Mr. Bibb received a flesh wound and the constable lost a finger.

Fighting Daily.

SAN SALVADOR, Feb. 24.—President Vasquez has received reinforcements and is now trying to open communication with Amapala. There has been fighting daily. He compelled Polycarpo Bonilla and Gutierrez to retire, but they have effected a junction with Ortiz and Herrera and made such a vigorous attack that Vasquez was obliged to fall back, and he narrowly escaped falling into their hands. Both sides are now entrenched.

Fire at Fort Wayne.

FORT WAYNE, Feb. 24.—This city was visited by a conflagration yesterday which laid in waste the building occupied by Meyers Brothers, largest gents' furnishers in the city; Vandermark's shoe house, the 3-story Clay school building, and the telephone exchange. The scene of the raging flames was on Calhoun street. The total loss is estimated at \$100,000, with about two-thirds that amount of insurance.

Increasing cloudiness and snow in southern portion Saturday afternoon or night; north winds.

PENNSYLVANIA believes in taxing the rest of the country for the benefit of her mill owners, and it is not surprising that she should vote that way. And there is no other State in the Union that has such a fearful record for strikes and labor riots under Republican high tariff.

HERE'S the way the Louisville Post views the result of the latest election: "By a majority of 175,000 Pennsylvania demands that a tax be imposed on the rest of the country for her special benefit. The spirit of independence has departed from the Keystone State and she proclaims herself a helpless and irredeemable pauper."

It's amusing the way the Washington correspondents write about the new tariff bill now in the hands of the Finance Committee of the Senate. One day they say it will be very strongly protective when the committee completes it, and the next day they howl about its free trade features. It's very evident they don't know very much about it.

WHAT CAUSED THE FAILURES.

The Bradstreets have published an interesting pamphlet showing what causes led to the failures of 1893. The figures will prove somewhat surprising, inasmuch as many people would attribute most of the failures to the hard times.

Of the total of 15,508 failures 2,546 are said to have been caused by incompetence; by inexperience, 940; lack of capital, 5,194; unwise credits, 726; failures of others, 446; extravagance, 198; neglect, 481; competition, 191; disaster, 3,463; speculation, 181, and fraud, 1,142. —Cincinnati Post.

Bradstreets must be mistaken. The editor of the Ledger says the Democrats are responsible for most everything along this line since the election in 1892.

FREE COAL AND IRON ORE.

"There is no reasonable excuse even from the protectionist's point of view," says the New York Times, for the retention of the duty of 75 cents a ton on iron ore and bituminous coal. So far as iron ore is concerned, the opposition to the wise provision of the House bill comes from Northern Alabama and the region near the head of Lake Superior, where the greater part of domestic supply is obtained.

That there is no reasonable ground for opposition in Alabama is shown by the fact freely admitted by those who ask for a duty—that the cost of making iron in Alabama is lower now than the cost in any other part of the world.

It is notorious that during the last six months

large quantities of Alabama iron have been sold at prices much lower than the lowest price of English iron in the English market, and that thousands of tons have been sold to English buyers.

The removal of the duty could have no injurious effect upon the southern iron industry.

The free importation of bituminous coal would touch only the edge of the enormous domestic industry that turns out 113,000,000 tons a year. Here again we see a silly protest from Alabama, although the coal interests of that State could not be affected. The mine owners of Alabama sell no coal in New England or California, where the quantity of Canadian coal used would be increased. They do sell their coal in foreign countries in open competition with the coal of the world."

The Modern Mother.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

WANTS THE RULES CHANGED.

Congressman Paynter's Plan For Counting a Quorum When Members Refuse to Vote.

A special from Washington City says that Congressman Paynter has drawn up the form of a rule which he will propose for recording members, as present, but not voting. The proposed rule follows: "But should a quorum fail to vote and the point be made no quorum had voted, then any member can announce to the Speaker that a member (giving his name) is present and failed to vote on such roll call. Thereupon the Speaker shall direct the Sergeant-at-Arms to bring such member before the bar of the House; and, when the Sergeant-at-Arms has brought such member before the bar of the House, the Speaker shall then direct the Clerk to call the name of such member, who, again failing to vote, shall be noted on the journal by the Clerk as present, and be counted by the Speaker for the purpose of making a quorum."

Mr. Paynter's proposed rule is somewhat similar to that presented to the House by Representative Dearmond, of Missouri, but omits the fine which Mr. Dearmond would inflict for refusal to vote.

The plan proposed by the Ninth district's Representative seems to be an excellent one. It is far preferable to Czar Reed's method of counting hats, umbrellas and anything else in sight to make a quorum.

Peebles Wins the Pepper Case.

Years ago when the old Pepper whisky became famous The Joseph R. Peebles' Sons Co., of Cincinnati, bought up large quantities, stored it away and commenced advertising "Peebles Bottling of Pure, straight, old Pepper Whisky." Out of this grew the celebrated case of Pepper vs. Peebles, which was decided in favor of Peebles, who still has a warehouse full of this fine old whisky and sells it at the popular price, protecting both dealer and consumer, while it was shown in open court that James E. Pepper & Co. have since been bottling somebody else's whisky, an adulterated article, and selling it as though distilled by themselves. Peebles trade in the genuine old Pepper whisky is immense, averaging over one hundred cases daily. Some very interesting literature on the subject will be furnished upon application to The Joseph Peebles' Sons Co., of Cincinnati, O.

To-night.

Steele Mackaye's powerful drama of the French revolution, "Paul Kauvar," will be presented at Washington Opera House this evening. The story of the play is not the tale of blood and thunder that one would expect in a play in which is shown the guillotine, having just completed its work, but a story of France, in which pathos and love are very powerful factors. The plot is clear, the tale is interesting, and many of the situations are exciting without being overwrought. Steele Mackaye has written sharp but strong dialogue for his characters, but his situations are so distinct that the story would be understood without the dialogue. One of the most realistic features of the play is the wax head used in the guillotine tableau in the first act, and many people are astonished at its life-like appearance. Tickets at Nelson's.

Maysvilleans Interested.

A special from Ashland says: "From present indications Greenup will be one of the counties of Northeastern Kentucky that will make a rapid advance this year. During the past six months more than 20,000 acres of land along the line of the Eastern Kentucky railroad between Greenup and Williard have been purchased by prospective tobacco raisers, who will the coming season give the work their active attention."

"Of this land 7,000 acres is owned by a syndicate of Maysville capitalists, who last season made a successful test of the business."

Guaranteed Cure.

We authorize our advertised druggist to sell Dr. King's New Discovery for consumption, coughs and colds, upon this condition. If you are afflicted with a cough, cold or any lung, throat or chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We could not make this offer did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Trial bottles free at J. J. Wood's drug store. Large size 50c. and \$1.

Delinquent Tax Notice.

Notice is hereby given that by order of the City Council of Maysville, all property with taxes unpaid by March 1st, 1894, will be advertised for sale and sold according to law. Twenty-five per cent will be added to the delinquent taxes if advertised for sale.

Those with taxes unpaid will please take notice from this and pay at once.

Want the Wilson Bill Passed.

MIDDLESBORO, Ky., February 21.—The Hall & Vaughn tannery is running full time now, notwithstanding the hue and cry about the unjust discrimination of the Wilson bill against harness leather. This is a large industry here and one of the main supports of the town. They intend increasing their working force in a few weeks. One of the leading members said a few days ago that they could compete with the world, regardless of protection, and that an early passage of the bill by the Senate was all they asked.

ITALY'S ENORMOUS TAXES.

The Financial Load the People Carry is
Fearful to Contemplate.

George Rutledge Gibson, writing from Naples, gives some interesting information regarding the financial condition of Italy. "The fate of Italy hangs in the balance," he says. "People here realize that the situation is desperate, and they pin their hopes, if not their faith, to Crispi, the new premier. But too much is expected of him, and a war or a revolution may result from the discontent which exists, but which is for the moment subordinated to the vain hope that Crispi can perform some financial legerdemain that will change the balance sheet.

"The taxes are something fearful to contemplate. In writing you 18 months ago from Venice I related some amazing examples of taxation there. I may add now that the farmers pay to the state an annual tax equal to 45 per cent of their estimated incomes. The standing army here represents 3 per cent of the entire population, while in Germany it is only 1 per cent. Germany has 50,000,000 of population and Italy 30,000,000. The war footing, the number of men who may be called out in Italy, is 400,000 more than in Germany. It looks to me as if this army would either have to fight or disband pretty soon."—St. Louis Globe-Democrat.

IRON HALL ORDERS.

Judge Winters Will Make Two Very Important Ones Today.

INDIANAPOLIS, Feb. 24.—Judge Winters will make two orders in the Iron Hall receivership today. One will declare a dividend of probably 15 per cent, and the other will fix a time for a final accounting with the receiver of states that have not accounted, and upon failure, such states will be excluded from the participation in the distribution of the Indiana receiver.

This action is based on the finding of the master in chancery of the Philadelphia common pleas court who holds that while the money belongs to the supreme court it is not sufficient to require the court to send it to him to Philadelphia for distribution.

The money in dispute was the reserve funds in the branches of the different states. In Pennsylvania it amounts to \$100,000, in Massachusetts \$200,000, in New Jersey and Missouri about \$50,000, and in Maryland \$100,000.

Judge Winters will give not more than 45 days' time for a final accounting and after that time the receivership will be wound up.

MASILLON MINERS.

Some Prospects of the Locked-Out Men Returning to Work.

MASILLON, O., Feb. 24.—A joint convention of the Massillon district miners and operators was held yesterday afternoon to discuss the abolition of the 15 cents differential in mining rates which has had the effect of locking out 3,000 men since Feb. 19.

The operators were unprepared to say whether or not the question was open to arbitration and the whole matter was thereupon referred to a committee to take up after a reply to this question has been received from the operators. The operators claim that the maintenance of this differential is ruining their trade.

Train Ditched—Tramps Injured.

UPPER SANDUSKY, O., Feb. 24.—A broken axle on the southbound local train, Columbus, Hocking Valley and Toledo railroad, threw six cars into the ditch yesterday. Three tramps, who were stealing a ride, were seriously injured. Thomas McKenzie of Indianapolis had a shoulder dislocated and a fearful gash in the forehead. His condition is serious. T. THE GOOD TIMES COMING.

Oh, the good times are comin', no matter what they say;
You kin hear 'em hummin' for a hundred miles away;
They're sailin' through the summer an' a-fightin',
through the freeze,
A-ridin' down the rivers an' a-blowin' in the breeze!

Comin',
A-hummin'—
Like a regiment a-drummin';
Lane has got a-turnin',
Buttermilk's a-churnin',
So keep your lamps a-burnin'

Till the good times come!

Oh, the good times are a-comin', you kin see 'em on the run,
A-twinklin' in the dewdrops an' a-shinin' in the sun;
A-dumpin' o'er the daisies an' a-babblin' in the brook,
An' lookin' at a fellow like his sweetheart uts look!

Comin',
A-hummin'—
Like a regiment a-drummin';
Lane has got a-turnin',
Buttermilk's a-churnin',
So keep your lamps a-burnin'

Till the good times come!

Pork Packing And Provisions.

There has been a moderate increase in the marketing of hogs the past week, with enlarged shipments eastward, says the Price Current. Western packers handled 240,000, compared with 210,000 the preceding week, and 195,000 last year. The total from November 1 is 4,500,000, against 4,465,000 a year ago. Prices at the close are generally slightly lower than a week ago. The Eastern demand, with the continued unfavorable relation between values of hogs and product, have tended to restriction of Western operations, and it is now evident that the winter season will close 100,000 to 150,000 short of the estimate submitted early in January.

In the provision trade there has been a fair degree of firmness, with considerable current distribution of product, but a continued lack of speculative interest. Chicago prices close moderately higher than a week ago.

Posters Forecast.

W. T. Foster, the St. Louis weather prophet, says: "One of the most severe storm periods of recent years will prevail over the United States and Canada from March 7 to April 13. In many parts of the country unusually heavy rains or snows will fall and floods may be expected.

"Seven principal low barometers will cross the continent from west to east during the period. Tornadoes may be expected in those parts frequented by these destroyers. Temperature will go to great extremes, and frost will damage early crops southward.

"Electric storms will precede and severe cold waves follow some of these lows. Those crossing the continent March 7 to 11, 12 to 16, 18 to 24, 25 to 28, and April 4 to 8, should be carefully watched."
